WAR SITUATION UNCHANGED After a week in flight German Army prepares to make a desperate stand

For a week now the German army has been retreating. Not having the means to get the guns across river as easy as the enemy the Allies' have been unable to pursue to advantage.

Germans are fortifying Brussels expecting an attack of combined English and Belgium forces.

News from Albania says that the Montenegrin troops with the Serbians have repulsed the Austrians of the Bosnia frontier.

The Russians have routed the right and left wing of the Austrian army along the river San. The center still makes a stand but with both wings smashed their surrender or annihilation seems imminent.

The German army are making preparations to make a stand against the Allies' on the river Aisne and on heights to the north and northwest of Rheims.

A dispatch from South Africa says that the German troops after a hard battle were compelled to surrender to the Fourth South African Rifles commanded by Col. Daeston. They occupied a drift 60 miles from Steinkop, in the Namaqualand.

Russian troops have crossed the river San and have repulsed the Austrians, capturing many guns.

The French have re-occupied Amiens.

Germany has evacuated the region about Nancy, which ten days resisted most valiantly the German army. One attack was made under the direction of the Kaiser in person, but was repulsed.

Admiral Sir George Patry, commander in chief of the Royal Australian fleet cabled the Admiralty in England that after sixteen hours fighting in over six miles of bush, the naval reserves captured Herbertshoek with its wireless station on September 12th. Herbertshoek is in the Bismarck Archipelago in the Pacific ocean.

The report that the German army between Brussels and Louvain had been cut off by a Belgium army reinforced by Russians, has been confirmed, which means that part of the Russian army must be in Belgium territory.

Germans have been seen laying mines under Belgian roads, along which the Allies' may take while pursuing.

German troops entered Nyassaland, British Central Africa, last week, but were driven off with a big loss. In an attack on the British station at Karongo, the Germans were repulsed after repeated heavy charges, being put to flight after three hours fighting.

AID TO PRE-EMPTION HOLDERS

Deferred Payment for Patents

OTTAWA, Sept. 5.—New regulations regarding pre-emption lands which will permit those who wish to prove up and lack means to discharge payments, to do so, have been issued. Holders of pre-emptions can apply for patent and have their applications recognized, but will not receive them until payments are made.

Having applications accepted will permit holders of pre-emptions to leave claims and earn sufficient to meet required payments. These deferred payments of proved up claims will be carried on until next year.

P. J. White, representing the Calgary Morning Albertan, was in town Wednesday.

COMINGS AND GOINGS

C. H. Wagner, J. P. was called to Suffield on Monday, but the case did not appear. Mrs Wagner made the trip with him.

Mark Wilson has returned from St. Paul, Minnesota, and was in town with his buzz wagon Monday.

A committee consisting of Messrs. R. B. Haight, W. N. Stowagen, F. E. Clydesdale, Messrs A. S. Lockrem and C. T. Hildahl, has been appointed to consider conditions of distress in families throughout this community and will give assistance to those in need as far as possible. The following have been appointed to investigate conditions in their respective communities and report to the secretary, C. T. Hildahl, Carlstadt, on or before Saturday Sept. 26th:

W. McKinney, Sunny South.
H. G. Kimball, Royal and Heilgoland.

August Salverson, Jenner.
Nels. Nunnemaker, High Valley.
Ole Carlson, Fertile Plains.
Mrs C. Benjamin, Blue Grass.
John Larson, Biny Hills.

We urgently request that any family in need or any case known to be in need be reported one of the above persons as soon as possible and it will receive attention. Signed. Committee

A German writing to an American paper says that the fleet have completely fooled the silly British. We quite agree with him. The "silly" British have been under the erroneous impression that the German navy was meant to defend German commerce even if it had to fight to do so. The Kaiser evidently intended his fleet for ornament not use.—Okotoks Review.

C. S. Pingle M. P. P., has been
here in regard to road work. The
government is going to do about
\$500,000 worth of road work in this
locality, the work to go to married
men.

Efforts are being made to have
a government well drilling machine
in this country. If the government
heeds the petition of the farmers it
will be one big step towards mixed
farming.

THURSDAY, SEPTEMBER 17, 1914.

Thursday, September 24th. Be
care to remember the date.

Rudyard Kipling in his "The
Phantom" called woman "a rag, a
bone, and a hunk of hair." A
Minnesota woman replies with this
description of man. "A jag, a
drone, and a tank of air." Little
children love one another.

While it is premature to even
suggest the outcome of the present
war and while neither one of the
Allied countries can afford to lose,
it is also true that Germany must
and will put forth every effort to
win and will fight to the last ditch.

If she is not victorious Germany
will no doubt have to pay the "lit-
tle" Belgium an enormous war
indemnity. Alsace Lorraine must
be returned to France with the war
indemnity demanded by Germany
in 1870. Prussian militarism and
despotism will be destroyed as En-
gland would not allow the peace
between the nations of the world to
be so unscrupulously broken again.

With the defeat of Germany in
Central Africa, England will gain
territory that will make possible the
dream of that great statesman, Cecil
Rhodes, a Cario to Cape route under
British control. The direct route
is now interrupted by German East
Africa stretching north and south.
The British made a way round this
by crossing Belgian territory under
a treaty, but this had to be aban-
doned owing to Germany protesting.

A second route was made by way of
Lake Tanganyika connecting the
rail by water. It was near this point
that the German troops invaded
British territory last week. After
pushing back the would be invaders
British troops attacked and are re-
ported to have captured the German
station at Langenburg. This point
makes the break between British
north and south Africa and should
it become British territory it will
make an unbroken route from the
most northerly point to the most
southerly point.

The end of this war will see many
changes in Russia. Many reforms
will be made in Poland. It is pos-
sible that Russia will become libe-
ralized, for Despotism and Autocracy
will surely have received their death
blow. The Jews will be given the
right to live. For the first time in
her history, Russia has placed Jews
in authority in her army. It was
because Russia refused passports to
Jews belonging to the States that
caused the split in the commercial
relations of these two nations dur-
ing the time Taft was president.

The time is coming when the
people who have to fight the battles
and have the sorrows and attend-
ants of evil to bear, shall have
a say in the making of war.

A report comes that Czar Nicho-
las may free political prisoners in
Russia and Siberia.

Oh yes, we will get that crossing
fixed one of these days.

A meeting was held at the Mount-
ed Police Barracks at Suffield on
Monday in reference to the Bound-
ary Law. There were several ranchers
there and Mr. Murray, of the Cana-
dian Wheatlands company. The
feeling of the meeting was that the
farmers might be helped a bit and
Mr. Murray made the generous offer
to raise the pound on the Bound-
ary land. This will help farmers
and in these times when feed is so
scarce and no crops to spoil, it
might be that the Municipalities
would follow the example set by
Mr. Murray.

When "hard times" are over
what merchandise, soap, pickle,
blacking and so forth will the peo-
ple buy? Undoubtedly, that which
is kept before them through the
power of the printed word during
the "hard times."

WHAT THE WOMEN OF ALBERTA CAN DO FOR THE SOLDIERS

Letter Received From Edmonton

The women of Alberta, in com-
mon with the women all over the
Dominion, can render valuable as-
sistance to the soldiers who have so
willingly volunteered for active sea-
sonal service and are now on their
way to the front, by furnishing the
Army Medical Corps with the fol-
lowing articles:

FOR WARD USE—Fellow cases,
towels, tablecloths, medicine cloths,
utensil cloths, roller towels, fomen-
tation wringers, hot water bottle
covers, bandages of all descriptions,
mug covers, knitted jackets.

FOR PATIENTS USE—Calico
shirts, socks, handkerchiefs, dress-
ing gowns, slippers, shirts of flannel
for helpless cases, flannel jackets,
bed socks, pyjamas, flannel under-
wear, abdominal binders knitted.

These lists have been supplied by
the Canadian Relief Committee
formed at a meeting held recently
at Government House, Ottawa,
when the three leading Hospital Aid
Societies of Canada passed the fol-
lowing resolution:

"That this meeting recommends
that all three organizations viz: the
Canadian Red Cross Society, St.
John's Ambulance Society and St.
John's Ambulance Brigade, co-op-
erate in the formation of voluntary
aid detachments, male and female,
throughout Canada and especially
so far as the women are concerned
to make such articles for the use of
the troops in the field as laid down
in the scheme of voluntary medical
aid in Canada."

A shipment of articles such as
those named above will be made
from Edmonton to the Central
committee at Ottawa, within the
next few weeks and all societies or
individuals desiring to contribute
some of their own work should
communicate at once with the Pro-
vincial secretary, John's Am-
bulance Association, M. W. Harlow
University of Alberta, Edmonton
South.

Buy an Irrigated Farm FROM THE CANADIAN PACIFIC RAILWAY

BECAUSE

Irrigation makes the farmer independent of rainfall and in-
sures good crops, not occasionally, but every year.
Irrigation makes possible the successful culture of alfalfa, the
king of fodders, which insures best returns in dairying and
mixed farming.

Irrigation means intensive farming and close settlement with
all the advantages of a densely populated agricultural
community.

Irrigation in the Canadian Pacific Railway Irrigation Block
is no longer an experiment, the year 1914 having absolutely
demonstrated its success wherever intelligently applied.
You can have irrigated land from the Canadian Pacific Rail-
way at prices ranging from \$35 to \$75 per acre, with twenty
years to pay and the privilege of a loan of \$2,000.00
for improvements (6% interest); no principal payment at
the end of first and second years and no water rental for first
year. Assistance is also given in supplying stock in approved
instances.

This is the most liberal offer of irrigated farm land on record
